# Correction to: Better survival in female *SOD1*-mutant patients with ALS: a study of *SOD1*-related natural history

Lu Tang, Yan Ma, Xiao-lu Liu, Lu Chen and Dong-sheng Fan\*

**Correction to: *Transl Neurodegener* (2019) 8:2**  
<https://doi.org/10.1186/s40035-018-0142-8>

In the original publication of this article [1], a numerical value in the sentence “The mean (SD) AAO was 43.92 years (9.24) for all subjects, with a significant difference between patients carrying mutations in exon 2 ( $n = 24$ , 46.83, 8.31) and exon 4 ( $n = 18$ , 37.75, 7.67) ( $p = 0.002$ ).” is wrong. The true value in the parenthesis of exon 2 should be ( $n = 24$ , 46.63, 8.31).

Published online: 19 March 2019
